For Nonprofits with Big Goals and Small Budgets!

Multiple Giving Options - In order to attract more donation dollars you need to offer donors as many ways as possible to give. The EFT Value program allows you to collect donations from the web, by mail, by phone or face-to-face. We'll even help you set up monthly giving options for donations that keep coming in without you having to ask for them.

A Big Solution for Smaller Organizations - We have created an all-in-one solution that is used by our large, national non-profit clients but that is modified and scalable to meet the needs of smaller, local and regional nonprofits!

Less Complexity – Setup is easy and there is very little maintenance required by you. You have options, too. As you grow and your processing needs change, you can upgrade your services and add modules.

Excellent Value – Not only are we competitively priced but our bundling of services and attention to quality and customer satisfaction is unique and second to none in the non-profit market.

Key Features:

- **FREE** fully managed data entry services
- Auto drafting from checking, savings & credit card accounts
- Single & recurring donation processing and tracking
- Superior non-profit specific customer service
- Detailed training with manual
- Full access to marketing materials used by national organizations
- A choice of two free add-on modules from our premiere services
- Automatic, personalized email thank you receipts sent to your online donors
- Transaction history backup of donations

Why EFT Corporation?

EFT Corporation understands non-profits. EFT Corporation has been processing for non-profits for over 25 years. EFT Corporation has a depth of services to meet your changing needs. EFT Corporation understands the importance of quality and value. EFT Corporation is paranoid about the protection and security of your money. EFT Corporation strives to find ways to reduce your costs and increase your donor giving.

EFT Corporation was the first to process an electronic gift for a non-profit organization in the USA. We are known by thousands to provide quality, secure and innovative non-profit-specific money processing solutions. Everything from training to customer support to online secure reporting is geared around your specific needs as a non-profit organization.
